## **INDEPENDENT ACCOUNTANTS' REVIEW REPORT**

To the Board of Commissioners  
First Ward Gravity Drainage District of Acadia Parish  
Acadia Parish Police Jury  
Rayne, Louisiana

We have reviewed the accompanying financial statements of the governmental activities and each major fund of the First Ward Gravity Drainage District of Acadia Parish, a component unit of the Acadia Parish Police Jury, as of and for the year ended December 31, 2013, which collectively comprise the Drainage District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of the management of the First Ward Gravity Drainage District of Acadia Parish. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

The management of the First Ward Gravity Drainage District of Acadia Parish is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our review, with the exception of the matters described in the following paragraphs, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

In accordance with the *Louisiana Governmental Audit Guide* and the provisions of state law, we have issued a report, dated June 25, 2014, on the results of our agreed-upon procedures.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on page 23 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information was not audited, reviewed, or compiled by us, and we do not express an opinion or provide any assurance on it.

Management has omitted the management's discussion and analysis information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context. The results of our review of the basic financial statements are not affected by this missing information.

The Changes in Net Position Reported for Governmental  
Activities in the Statement of Activities is different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay	-
Depreciation expense	(51,740)

The Net Effect of various miscellaneous transactions involving Capital Assets, such as sales, trade-ins, and donations is to decrease net position	(106,268)

Bond proceeds are reported as other financing sources in governmental funds and thus contribute to the change in fund balance. In the Statement of Net Position, however, issuing debt increases long-term liabilities and does not affect the Statement of Activities. Similarly repayment of principal is reported as an expenditure in Governmental Funds and thus contributes to the change in Fund Balance. In the Statement of Net Position, however, the repayment of principal reduces the liability.

Principal payments	-
Debt proceeds	-

Governmental Funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.

Bond issue costs	-

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in Governmental Funds.

**NOTES TO THE FINANCIAL STATEMENTS**

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies for the District are described below:

Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statutes and the industry audit guide, Audits of State and Local Governments.

The following is a summary of certain significant accounting policies:

**A. Financial Reporting Entity:**

As provided by Louisiana Revised Statute 38:1758, the Drainage District is governed by five commissioners. These five commissioners are referred to as the Board of Commissioners and are appointed by the parish police jury. The Drainage District was created under the authority of Louisiana Revised Statutes 38:1751–1802 and was established for the purpose of draining and reclaiming the drained or partially drained marsh, swamp, and overflowed lands in the district that must be levied and pumped in order to be drained and reclaimed.

In conformance with GASB Codification Section 2100, the Drainage District is a component unit of the Acadia Parish Police Jury, the governing body of the Parish and the governmental body with oversight responsibility. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the Police Jury, the general governmental services provided by that government unit, and other governmental units that comprise the governmental reporting entity.

**B. Basis of Presentation:**

The District's basic financial statements consist of both the government-wide and the fund financial statements. The statements are prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental units.

**1. Government-Wide Financial Statements**

The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These statements include the financial activities of the overall government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

In the government-wide Statement of Net Position, the governmental activities are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position is reported in two parts: (1) Net investment in capital assets and (2) unrestricted net position.

The government-wide Statement of Activities reports the expenses of a given function offset by program revenues, directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses associated with a distinct functional activity. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, etc.).

The District reports all direct expenses by function in the government-wide Statement of

**(Continued)**

**NOTES TO FINANCIAL STATEMENTS**

Activities. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the reported year's activities.

**2. Fund Financial Statements**

The District uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts.

The fund financial statements provide information about the District's funds. The emphasis of fund financial statements is on major individual governmental funds, each reported in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. The District does not have any nonmajor funds.

The District reports the following major governmental funds:

General Fund – This is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

*Debt Service Fund* – This fund is used to collect and accumulate monies for the repayment of bonds.

**C. Measurement Focus and Basis of Accounting:**

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

**1. Measurement Focus:**

**a. Government-Wide Financial Statements**

The government-wide fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery) and financial position. All assets and liabilities (whether current or non current) associated with its activities are reported. Government-wide fund equity is classified as net position.

**b. Fund Financial Statements**

Governmental fund financial statements are reported using the "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on its balance sheet. Their operating statement presents sources and uses of available spendable financial resources during a given period. This fund uses fund balance as its measure of available spendable financial resources at the end of the period.

**(Continued)**

**NOTES TO FINANCIAL STATEMENTS**

**2. Basis of Accounting:**

**a. Government-Wide Financial Statements**

In the government-wide statement of net position and statement of activities, the statements are presented using the accrual basis of accounting. Under the accrual basis of accounting revenues are recognized when earned and expenses are recorded as a liability when incurred or when the economic asset is used, regardless of the timing of related cash flows. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of assets or resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements and donations. Property taxes are recognized as revenues in the year for which they are levied. Grants, entitlements, donations and similar items are recognized as revenue in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

**b. Fund Financial Statements**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and revenues are considered to be "available" when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues are classified by source and expenditures are classified by function and character. Expenditures are recorded when the related fund liability is incurred. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

**D. Deferred Outflows of Resources and Deferred Inflows of Resources:**

In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances, governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively.

**E. Equity Classifications:**

**1. Government-Wide Financial Statements**

The District's net position are reported in three parts:

- a. *Net investment in capital assets* – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets;
- b. *Restricted net position* – consists of net position with constraints placed on the use either by:

**(Continued)**

**NOTES TO FINANCIAL STATEMENTS**

- (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or
- (2) law through constitutional provisions or enabling legislation; and
- c. *Unrestricted net position* – all other net position that do not meet the definition of “restricted” or “net investment in capital assets.” At December 31, 2013, the District only has unrestricted net position.

Restricted or unrestricted amounts are considered spent when an expenditure is incurred for purposes for which both restricted and unrestricted net position is available. Restricted amounts would be reduced first, followed by unrestricted amounts, when expenditures are incurred for purposes for which amounts in unrestricted net position could be used.

**2. Fund Financial Statements**

During the year ending December 31, 2012, the District adopted GASB Statement No. 54, *Fund Balance Reporting and governmental Fund Type Definitions*, which provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. As a result, fund balance is classified as follows in the governmental fund financial statements. Proprietary fund equity is classified the same as in the government-wide statements.

Under GASB Statement No. 54 fund balance will be displayed in the following classifications depicting the relative strength of the spending constraints placed on the purposes for which resources are to be used.

- a. *Nonspendable fund balance* – amounts that are not in a spendable form (such as inventory) or are required to be maintained intact (such as the corpus of an endowment fund).
- b. *Restricted fund balance* – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or be enabling legislation.
- c. *Committed fund balance* – amounts constrained to specific purposes by a government itself using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.
- d. *Assigned fund balance* – amounts a government *intends* to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority to.
- e. *Unassigned fund balance* – amounts that are available for any purpose; these amounts are reported only in the general fund.

Restricted or unrestricted amounts are considered spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. Committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

The District has not established a stabilization arrangement.

**NOTES TO FINANCIAL STATEMENTS**

**F. Deposits and Investments**

The entity's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of 90 days or less from the date of acquisition. State law and the District's investment policy allow the entity to invest in collateralized certificates of deposits, government back securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government backed securities. Under state law, the District may deposit funds with state banks organized under Louisiana Law and national banks having their principal offices in Louisiana.

The District had \$201,572 in investments in certificates of deposits as of December 31, 2013. These certificates are not subject to GASB Statement No. 31 requirements, thus they are stated at cost.

**G. Ad Valorem Taxes Receivable**

**1. Government-Wide Financial Statements**

Property taxes are recognized in the year for which they are levied, net of uncollectible amounts, as applicable.

**2. Fund Financial Statements**

Property taxes attach as an enforceable lien on property as of January 1. Billed taxes are due by December 31, becoming delinquent on January 1 of the following year. The taxes are based on assessed values determined by the Assessor of Acadia Parish and are collected by the Sheriff. The taxes are remitted to the District net of deductions for pension fund contributions. Taxes are budgeted and the revenue recognized in the year they are levied.

All trade and property tax receivables are shown net of uncollectibles. The District provides an allowance for doubtful accounts based on an estimate derived from a review of the entity's historical collection experience and a review of the current status of trade accounts receivable. All accounts receivable are considered collectible as of December 31, 2013, therefore the allowance for doubtful accounts at December 31, 2013 is \$-0-.

The District levied taxes in 2013 on the assessed valuation of property in the District. The taxes levied, exclusive of homestead exemptions, was \$46,930,111 for the year 2013. Taxes receivable at December 31, 2013 totaled \$315,320 all of which is considered collectible.

The following is a summary of authorized and levied ad valorem taxes:

	<b><u>Authorized Millage</u></b>	<b><u>Levied Millage</u></b>
First Ward Gravity Drainage District	<b><u>8.00 mills</u></b>	<b><u>8.00 mills</u></b>

**H. Inventories**

Inventories are valued at the lower of cost or market. At December 31, 2013, the District had no inventories.

**NOTES TO FINANCIAL STATEMENTS**

**I. Prepaid Items**

At December 31, 2013, the District had no prepaid items.

**J. Fixed Assets**

The accounting treatment over property, plant and equipment (fixed assets) depends on whether the assets are reported in the government-wide or fund financial statements.

**1. Government-Wide Financial Statements**

The District's property and equipment with useful lives of more than one year are stated at historical costs and comprehensively reported in the government-wide financial statements. The District maintains a threshold level of \$500, or more for capitalizing capital assets. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed of, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is reported in operations. Estimated useful lives, in years, for depreciable assets are as follows:

	<u>Years</u>
Building and Fence	5 - 10
Equipment	5 - 10

**2. Fund Financial Statements**

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

**K. Compensated Absences**

Employees earn one week of vacation time after one year of employment and two weeks after three years of employment. Sick leave is earned by a full-time employee at the rate of one-quarter day for each month of continuous employment equivalent to one day per quarter and one bonus day upon completion of one year of employment. Vacation and sick leave may not be accumulated and carried into future years. At December 31, 2013, there are no accumulated vacation benefits that require accrual or disclosure.

**L. Long-term Debt**

The accounting treatment of long-term debt depends on whether the debt is being reported in the government-wide or fund financial statements.

**1. Government-Wide Financial Statements**

The government-wide financial statements, outstanding debt is reported as liabilities, bond issuance costs are capitalized, and interest is accrued on outstanding debt.

**2. Fund Financial Statements**

The governmental fund financial statements recognize the proceeds of debt as other financing sources of the current period. Issuance costs are reported as expenditures. For fund reporting,

**(Continued)**

**NOTES TO FINANCIAL STATEMENTS**

bond premiums and discounts, as well as issuance costs, are recognized in the period the bonds are issued. Issuance costs, even if withheld from the actual net bond proceeds received, are reported as debt service expenditures.

**M. Extraordinary and Special Items**

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events within the control of the District, which are either unusual in nature or infrequent in occurrence. At December 31, 2013, the District had no extraordinary or special items.

**N. Interfund Transfers**

Permanent reallocation of resources between funds are classified as interfund transfers. Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them.

For the year ended December 31, 2013, the District had no interfund transfers.

**O. Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Consequently, actual results could differ from those estimates.

**NOTE 2: BUDGET PRACTICES**

The District prepares an operating budget of revenues and expenditures for the fiscal year based on current figures and past experience. The operating budget includes proposed expenditures and the means of financing them.

The District follows these procedures in establishing the budgetary data reflected in these financial statements:

1. On or before the last meeting of each year, the District prepares an operating budget for the fiscal year commencing with the following January 1. The operating budget includes proposed expenditures and the means of financing them. The District prepares the operating budget of revenues and expenditures for the fiscal year based on current figures and past experience.
2. The proposed budget is presented to the government's Board of Commissioners for review. The Board holds a public hearing and may add to, subtract from or change the proposed budget as they deem necessary. Any changes in the budget must be within the revenues and reserves estimated.
3. Budgets for the General Fund are adopted on a basis consistent with accounting principles generally accepted in the United States of America.
4. The budget is then adopted by the board. At anytime during the year the Board can amend the budget as necessary.

**NOTES TO FINANCIAL STATEMENTS**

5. All budgetary appropriations lapse at the end of each year.

	<u>Original Budget</u>	<u>Final Budget</u>	<u>Actual</u>	<u>(Unfavorable)/ Favorable</u>
<b>Net Change in Fund Balance</b>	<b><u>\$ 4,050</u></b>	<b><u>\$ 109,193</u></b>	<b><u>\$ 147,908</u></b>	<b><u>\$ 38,715</u></b>

Actual amounts may not vary unfavorably more than 5% from the final amended budget at the individual fund level.

**NOTE 3: CASH AND DEPOSITS**

At December 31, 2013, the District had cash and cash equivalents totaling \$360,917 as follows:

Demand Deposits	\$ 159,345
Petty Cash	<u>-</u>
Total Cash	\$ 159,345
Time Certificates of Deposit	<u>201,572</u>
Total Cash and Cash Equivalents	<u><u>\$ 360,917</u></u>

These deposits are stated at cost, which approximates market value. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance (FDIC) must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At December 31, 2013, the District had \$360,917 in deposits (collected bank balances and time deposits). These deposits are secured from risk by \$250,000 of federal deposit insurance (FDIC) and \$92,341 was covered by securities pledged as collateral and held by the custodial bank in the name of the depository bank.

Even though pledged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement No. 3, Louisiana R. S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the District that the fiscal agent has failed to pay deposited funds upon demand.

**NOTE 4: DUE FROM OTHER GOVERNMENTAL AGENCIES**

The following is a summary of receivables due from other governmental agencies at December 31, 2013:

**NOTE 6: LONG-TERM LIABILITIES**

At December 31, 2013, the District had no long-term liabilities.

**NOTE 7: LEASES**

**Operating Leases**

The District is obligated under a lease accounted for as an operating lease. An operating lease does not give rise to a property right or a lease obligation, and therefore the results of the lease agreement is not reflected in the general fixed asset or liability account groups.

The District has an operating lease of the following nature:

- a. The District has a lease with John Deere for a John Deere 350-GLC excavator. The excavator has a monthly lease payment of \$4,521.

The future minimum annual commitments under this operating lease are as follows:

<u>Calendar Year</u>	
2014	\$ 54,252
2015	54,252
2016	54,252
2017	<u>9,042</u>

**NOTE 8: RELATED PARTY TRANSACTIONS**

There were no related party transactions during the year ended December 31, 2013.

(Continued)

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 9: LITIGATION AND CLAIMS**

The District is not aware of any material claims, asserted or unasserted, pending as of December 31, 2013, that legal council believes is not adequately covered by insurance.

**NOTE 10: RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District purchases commercial insurance to cover any claims related to these risks. There were no significant changes in coverages, retentions, or limits during the year ended December 31, 2013. Settled claims have not exceeded the commercial coverages in any of the previous three fiscal years.

**NOTE 11: NEW ACCOUNTING PRONOUNCEMENTS**

- A. **GASB Statement No. 63** – During the fiscal year ending December 31, 2012, the District adopted Governmental Accounting Standards Board (GASB) Statement No. 63, *Financial Reporting of Deferred Outflows of resources, Deferred Inflows of Resources, and Net Position*. This statement provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. The statement of net position is renamed the statement of net position and includes the following elements: *assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position*.
- B. **GASB Statement No. 65** – In April 2012, the Governmental Accounting Standards Board (GASB) issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*. The statement clarifies the appropriate reporting of deferred outflows of resources or deferred inflows of resources to ensure consistency in financial reporting. The provisions of GASB No. 65 were implemented by the District for the year ending December 31, 2012. The effect of implementation on the District's financial statements has not yet been determined.

**NOTE 12: DATE OF MANAGEMENT'S REVIEW OF SUBSEQUENT EVENTS**

Management has evaluated subsequent events through June 25, 2014, the date which the financial statements were available to be issued.

**INDEPENDENT ACCOUNTANTS' REPORT**  
**ON APPLYING AGREED-UPON PROCEDURES**  
**FOR THE YEAR ENDED DECEMBER 31, 2013**

To the Board of Commissioners  
First Ward Gravity Drainage District of Acadia Parish  
Acadia Parish Police Jury  
Rayne, LA

We have performed the procedures included in the *Louisiana Government Audit Guide* and enumerated below, which were agreed to by the management of First Ward Gravity Drainage District of Acadia Parish and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about First Ward Gravity Drainage District of Acadia Parish's compliance with certain laws and regulations during the year ended December 31, 2013 included in the accompanying *Louisiana Attestation Questionnaire*. Management of First Ward Gravity Drainage District of Acadia Parish is responsible for its financial records and compliance with applicable laws and regulations. This agreed-upon procedures engagement was performed in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

***Public Bid Law***

1. Select all expenditures made during the year for material and supplies exceeding \$30,000, or public works exceeding \$150,000, and determine whether such purchases were made in accordance with R.S. 38:2211-2296 (the public bid law).

*Result:* - During the current year, the District did not make any expenditures for material and supplies exceeding \$30,000. Also, the District did not make any expenditure for public works exceeding \$150,000 during the current year.

***Code of Ethics for Public Officials and Public Employees***

2. Obtain from management a list of immediate family members of each board member as defined by R.S. 42:1101-1124 (the code of ethics), and a list of outside business interests of all board members and employees, as well as their immediate families.

*Result:* - Management provided us with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the period under examination.

*Result:* - Management provided us with the required list including the noted information.

4. Determine whether any of those employees included in the listing obtained from management in agreed-upon procedure (3) were also included on the listing obtained from management in agreed-upon procedure (2) as immediate family members.

*Result:* - None of the employees included on the list of employees provided by management agreed-upon procedure (3) appeared on the list provided by management in agreed-upon procedure (2).

### ***Budgeting***

5. Obtain a copy of the legally adopted budget and all amendments.

*Result:* - Management provided us with a copy of the original budget and all amendments to the budget during the year.

6. Trace the budget adoption and amendments to the minute book.

*Result:* - We traced the adoption of the original budget to the minutes of a meeting held on December 19, 2012 which indicated that the budget had been adopted by the commissioners of First Ward Gravity Drainage District of Acadia Parish by a unanimous vote. We traced an amendment to the budget to the minutes for a meeting held on December 16, 2013. The amended budget was also approved by a unanimous vote.

7. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues failed to meet budgeted revenues by 5% or more or if actual expenditures exceed budgeted amounts by 5% or more.

*Result:* - We compared the revenues and expenditures of the final budget to actual revenues and expenditures. Actual revenues were more than budgeted amounts by 9.7350%. For revenues any amount above a negative (5.00%) is favorable and acceptable. Actual expenditures were less than budgeted amounts by 0.0795%. For expenditures, any amount below a positive 5.00% is favorable and acceptable for the year.

### ***Accounting and Reporting***

8. Randomly select six (6) disbursements made during the period under examination and:

- (a) Trace payments to supporting documentation as to proper amount and payee;

*Result:* - We examined supporting documentation for each of the six selected disbursements and found that the payment was for the proper amount and made to the correct payee.

- (b) Determine if payments were properly coded to the correct fund and general ledger account; and

*Result:* - All six of the payments were properly coded to the correct fund and general ledger account.

- (c) Determine whether payments received approval from proper authorities.

*Result:* - Inspection of documentation supporting each of the six selected disbursements indicated proper approvals. In addition, each of the disbursements were traced to the district's minutes where they were approved by the full commission.

***Meetings***

9. Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by R.S. 42:11 through 42:28 (the open meetings law).

*Results:* - The First Ward Gravity Drainage District of Acadia Parish is only required to post a notice of each meeting and the accompanying agenda or advertise notice of public meetings. Management has asserted that proper posting or advertisement of public meetings was made. Management has copies of dated notices that they assert were properly posted.

***Debt***

10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

*Results:* - We inspected copies of all bank deposit slips for the period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

***Advances and Bonuses***

11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees that may constitute bonuses, advances, or gifts.

*Results:* - A reading of the minutes of the District for the year indicated no approval for the payments noted. We also inspected payroll records for the year and noted no instances which would indicate payments to employees which would constitute bonuses, advances, or gifts.

We were not engaged to perform, and did not perform, an audit, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of the First Ward Gravity Drainage District of Acadia Parish and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
